Hon. Luther H. Hodges  
Governor of North Carolina and  
Commander-in-Chief of the State's Military Forces  
Raleigh, North Carolina

Sir:

In obedience to the provisions of Section 127-14, General Statutes of North Carolina, I submit the Report of the operations of the Adjutant General's Department for the calendar years beginning January 1, 1957 and ending December 31, 1958.

Respectfully yours,

CAPUS WAYNICK  
Major General, NC NG  
The Adjutant General

# BIENNIAL REPORT TO THE GOVERNOR

CALENDAR YEARS 1957 - 1958

## I. THE NATIONAL GUARD—HISTORY AND MISSION

The National Guard is the organized and armed militia of each State and Territory with a history reaching back into the Colonial period. The adoption of the name "National Guard" was initiated by New York State during the visit of Marquis de LaFayette in 1824, as a compliment to the visitor, Commander of the Garde Nationale of France, and the designation has been accepted universally for the organized militia.

All Federally recognized units and elements of the active National Guard and the personnel in the inactive National Guard of the States, Territories, the District of Columbia and Puerto Rico, now constitute the National Guard of the United States.

In North Carolina, both Army National Guard and Air National Guard units have been established. They are reserve components for the Army and the Air Force. They are trained, equipped and available for mobilization in national service in the event of emergency at the call of the President. The Governor is Commander-in-Chief of the National Guard in the State in time of peace, and can employ the Guard for protection of life and property and the maintenance of order.

The Federal policy relative to employment of the National Guard as authorized by the Armed Forces Reserve Act of 1952 (Public Law 476, 82nd Congress) is outlined as follows:

"Sec. 201. (a) The Congress hereby declares that the reserve components of the Armed Forces of the United States are maintained for the purpose of providing trained units and qualified individuals to be available for active duty in the Armed Forces of the United States in time of war or national emergency, and at such other times as the national security may require, to meet the requirements of the Armed Forces of the United States in excess of those of the regular components thereof, during and after the period needed for procurement and training of additional trained units and qualified individuals to achieve the planned mobilization."

This law specifically defines the mission of the National Guard of the United States as a reserve component of the Army of the

United States and the United States Air Force capable of immediate expansion to war strength, able to furnish units fit for service anywhere in the world, trained and equipped to: 1. Defend critical areas of the United States against land, seaborne and airborne invasion. 2. Assist in covering the mobilization and concentration of the remainder of the reserve forces. 3. Participate by units in all types of operations, including the offensive, either in the United States or overseas.

## II. THE STRENGTH OF THE NORTH CAROLINA NATIONAL GUARD

The Army National Guard in North Carolina consisted of 1,115 Officers and 9,651 Enlisted Men as of December 31, 1958, comprising the State Headquarters and Headquarters Detachment, the 30th Infantry Division and the IV Corps Artillery. Major General Claude T. Bowers, of Warrenton, was Commander of the Division, and Brigadier General Weston H. Willis, of Jacksonville, was Commander of IV Corps Artillery.

The Air National Guard as of the same date comprised 87 Officers and 767 Airmen and was headquartered at Charlotte under Command of Colonel William J. Payne. The North Carolina Air National Guard consisted of the Headquarters of the 145th Fighter Group, the 156th Fighter-Interceptor Squadron, the 156th Weather Flight, the 145th Materiel Squadron, the 145th Air Base Squadron, the 145th USAF Dispensary and the Air Technical Detachment, all located at Charlotte; and the 263rd Communications Squadron, at Wadesboro.

The grand total of the organized militia of the State, whose operations this report reflects, was 11,520 at the close of the period for which the report is made.

## III. IMPENDING CHANGES

Throughout the two-year period this Department has been aware of impending changes in structure, in equipment and in training that would be required by the Department of Defense. An effort made by the Department of Defense to reduce the Army National Guard from 400,000 to 360,000 officers and men was prevented by Congress in 1958, but alteration of the structure in this State is immediately ahead of us with a new Troop Basis already negotiated by this Department and submitted to the Governor with the recommendation that he accept it.

The new Troop Basis will leave the North Carolina Army National Guard consisting of State Headquarters and Headquarters Detachment; the 30th Infantry Division—at seventy-one per cent of full strength; a Group Headquarters for Air Defense Artillery and two Air Defense Battalions; and three small Special Forces Detachments. The allocation of manpower to the Army National Guard of the State will remain about the same as it stood at the close of the period of this report. The 30th Infantry Division, chosen as one of the five first line reserve divisions from the twenty-one infantry divisions of the National Guard of the country, will be reorganized along pentomic lines. The Division which has been made up of three Regiments will be converted to a Division of five Battle Groups.

#### IV. ADMINISTRATION

The Adjutant General is charged with administration of National Guard affairs under provisions of State law. Legislative appropriations for the operation of the Department are made biennially. The administrative personnel of the Department paid from State funds number 35.

#### V. JOINT RESPONSIBILITY

The National Guard, available to serve both nation and State, is supported jointly by the Federal and State Governments. The Federal Government assumes responsibility for:

1. The pay for all authorized drills for all Federally recognized personnel participating in authorized inactive duty training and active duty for training, including appropriate duty or 'duties and periods of equivalent duty or training.
2. Furnishing uniforms, arms, equipment and supplies.
3. Supervision of training.
4. Funds for ordnance stores, quartermaster stores, camp equipage and a three-fourths share of the cost of State-owned armories as funds are made available by Congressional appropriation.
5. Audit and inspection of National Guard units and the accounts and records of the United States Property and Fiscal Officer.

The State has the responsibility for:

1. The enlistment, the appointment, the promotion, the transfer and the assignment of personnel subject to such qualifications for Federal recognition as may be established by the Secretaries of the Army and the Air Force.
2. Providing training and storage facilities not contributed by the Federal Government.
3. Training officers, warrant officers and enlisted personnel of the National Guard, Army and Air.
4. Accounting for all Federal property assigned to the National Guard in the State.

In the operation of this dual responsibility, the Federal Government assigns and maintains Regular Establishment Advisors for both the Army and Air National Guard. The Army Advisors assigned to the State at the close of the period of this report were headed by Colonel W. H. G. Fuller, with headquarters at Raleigh, having 27 Officers and 47 Enlisted Men under his command.

The Air National Guard Advisors were headed by Lt. Colonel Walter B. Wacławski, USAF, and consisted of two Officers and four Airmen.

## VI. FEDERAL PROPERTY CONTROL

Attached to the Department are personnel headed by the United States Property and Fiscal Officer who are paid entirely by Federal Funds. This personnel on active duty keeps a check on the distribution and care of Federal property consigned to the National Guard. The cost value of this property consigned to the Army National Guard in the State is approximately \$22,177,000.00; and to the Air National Guard, about \$10,350,000.00.

The United States Property and Fiscal Officer who has served through the entire period covered by this report is Colonel John C. Foreman. He has rendered superior service in his assignment and his report is attached to and made a part of this report to the Governor. Because of the requirement that he retire at age sixty, Colonel Foreman will give up his post May 1, 1959. It will become necessary for the Governor to recommend his successor to the Department of Defense early in the new year.

## VII. PERSONNEL CHANGES AND PROBLEMS

On June 24, 1958, Major Willard R. Bloxton, Chief Administrative Assistant to the Adjutant General, was retired because of physical disability. Later, Lt. Colonel Thomas B. Longest was promoted to Chief Administrative Assistant and made Assistant Adjutant General. To fill the vacancy in the Staff, Major Samuel T. Arrington, of Warrenton, was appointed. On September 30, 1958, Donald M. Watson resigned as Engineer for the Department, and Major R. E. H. Sheldon was chosen to succeed him.

Full-time employees paid from Federal funds are not classified as Federal employees; neither have they been accepted as State employees for coverage under the Teachers and State Employees Retirement System. We have dealt during the period of this report with two problems in connection with these employees to which reference will be made here:

1. The pay scale for the clerical employees paid from Federal funds is uniform throughout the country. But the maintenance forces are paid a scale based on the prevailing rates in the area in which the employees are centered. North Carolina employees receive lower pay than similar employees in South Carolina, Virginia and Tennessee, and the Department has asked for a correction at the national level of what seems to be illogical differentiation.

2. Another problem upon which staff work has been done during the period of this report is this anomalous position of approximately 559 full-time employees of the National Guard whose salaries are paid by the Federal Government. The Federal Government regards them not as Federal but as State employees.

The State has not made provision to include them in the Teachers and State Employees Retirement System. A bill has been drawn proposing to include them in the State System, and that will be presented to the 1959 General Assembly. This was done following conference with the Director of the Teachers and State Employees Retirement System and the Attorney General.

## VIII. NORTH CAROLINA ARMORY COMMISSION

The North Carolina Armory Commission, of which the Governor is Ex Officio Chairman, the Adjutant General Secretary and the Attorney General a member, is charged with the responsibility for the construction program, including the building of new

armories. Other members of the Commission are Major General Claude T. Bowers and Colonel Ivan Hardesty.

The State appropriation to pay a portion of the cost of armories built by Federal aid is made to this Commission and the Commission directs its expenditure. An audited report of all income and disbursements of the Commission, together with a list of assets, is a part of this report.

During the two years covered by this report, ten new armories were put under contract and construction started. Four of them, those at Southern Pines, Fair Bluff, Rocky Mount and Newton, were planned and advertised for bids in 1956, but the awards of the contracts were made in 1957. All four of these armories have been completed. Four others, those at Mount Airy, Asheboro, St. Pauls and Snow Hill, were put under contract during the period from January 1, 1957 through July 9, 1957. These armories have been completed.

Two armories, those at Statesville and Durham, were placed under contract in 1958 and construction is under way. Authorized and financed but not yet started are armories at Windsor, Roxboro, Siler City and Mooresville.

Following is a tabulation showing the over-all cost of these new projects and an indication of the source of the twenty-five per cent of the cost not paid by the Federal Government:

Location	Total Cost	State Contribution	Local Contribution
Southern Pines	\$124,602.00	15%	10%
Fair Bluff	\$123,897.00	17 ½ %	7%
Rocky Mount	\$146,271.00	5%	20%
Newton	\$127,920.00	10%	15%
Mount Airy	\$118,583.00	10%	15%
Asheboro	\$121,330.00	12 ½ %	12 ½ %
Saint Pauls	\$119,582.00	15%	10%
Snow Hill	\$117,315.00		25%
Statesville	\$136,952.00		25%
Durham	\$223,579.24		25%

#### IX. NORTH CAROLINA ARMY NATIONAL GUARD OFFICER CANDIDATE SCHOOL

1. In 1957, it became apparent that a new source of qualified junior officers for the Army National Guard units was desirable. This was due to the fact that the pool of junior officers which existed after World War II had become practically exhausted and changes in regulations had eliminated provisions under which

enlisted men could be commissioned readily. To deal with this problem, this Department established the North Carolina Army National Guard Officer Candidate School at Fort Bragg 19 December 1957. The School was organized to conform with directives and regulations issued by the National Guard Bureau.

2. The Adjutant General is the Director of the School. The Assistant Adjutant General was appointed Assistant Director and charged with coordination of all activities pertaining to it and the discharge of such other duties as the Director assigned. The School Commandant is Major William P. Keeton. An Academic Board was appointed and consists of the following:

- a. All general officers in the Army National Guard.
- b. All troop commanders of organizations authorized the grade of Colonel by TOE.
- c. The Senior Army Advisor, North Carolina Army National Guard.
- d. The School Commandant.

This Board was charged with reviewing all applications from prospective students and making a final recommendation to the Adjutant General as to the appointment of each applicant. In addition, it was required to convene periodically and make recommendations in regard to operating policies or procedures which it deemed appropriate.

3. The School Commandant was charged with the responsibility for supervision of the tactical, disciplinary and leadership training of the candidates. In addition, he was required to carry on all administrative activities necessary for the efficient operation of the School. The academic instruction has been performed by various officers of the North Carolina Army National Guard and to date forty-seven instructors have been on duty. These officers are selected on basis of experience and familiarity with the subject taught. In addition, three tactical officers have been designated to assist the Commandant in tactical and leadership training. The 30th Replacement Company located in Fuquay Springs was designated as the parent unit of the School and this company was charged with the responsibility of providing administrative and logistical support. This includes all normal house-keeping duties such as preparing meals and furnishing other supplies as required.

4. The North Carolina Army National Guard did not possess an adequate facility for operation of the School and an appeal was made to Headquarters Third United States Army to provide suitable facilities which did exist at Fort Bragg. Six buildings were made available and a standard license was formally executed. The State is responsible for the upkeep and the utilization of these buildings.

5. On 19 May 1958, a representative from the Inspector General Section, Headquarters Third United States Army, inspected the School at Fort Bragg and determined that the standards of instruction, discipline, training, facilities and organization were of such a caliber that the Army Commanders could recommend that the School be granted Federal recognition, effective 19 May 1958 as an accredited State Officer Candidate School.

6. The School had its official opening with a week-end assembly on 24-25 May 1958. Class Number 1 was limited to sixty candidates out of eighty-one applicants. The remaining twenty-one applicants were designated as alternates and nine of these replaced a like number of original appointees within the first thirty days of operation. Major General Claude T. Bowers, Commanding General, 30th Infantry Division, and President of the Academic Board, made the welcoming address to this class on 25 May 1958.

7. The School seeks to accomplish the desired objective through a program of instruction provided by the United States Army Infantry School at Fort Benning, Georgia. The course consists of 236 hours of instruction and is scheduled to be completed in a period of approximately thirteen months. Each school year consists of six week-end training assemblies and two two-weeks field training periods. It is divided into three terms.

8. The first class has completed approximately two-thirds of its schedule and there are thirty-seven candidates presently enrolled out of the original sixty. It is expected that approximately sixty per cent of the original enrollment will graduate after the field training period in June, 1959. Experience to date indicates that future classes should have an original enrollment of one hundred candidates. In addition, all instructors should be appointed on a permanent basis rather than utilize a different instructor for each subject.

9. Normal operating expenses required that some funds be made available for the support of the School. Due to this and

under the provisions of Section 127-102 of the General Statutes of this State, an annual allowance of \$1,000.00 has been authorized by this Department.

10. To date it is considered that the School has been successful and that it is accomplishing the mission for which it was organized. This success is due in a large measure to the efforts and genuine interest of the entire North Carolina Army National Guard and especially the personnel which have been officially connected with the School. With the expansion outlined above, it is believed that the School will meet all future requirements for newly commissioned second lieutenants in the Army National Guard units.

Believing that we should look forward to building necessary structures on our own campus for the School, the Adjutant General's Department and the Armory Commission approached the State Hospitals Board of Control with a request for dedication to this purpose of about twenty acres of land owned by the Board at Butner. The request was granted, and the site is available for the development when funds can be procured for the construction of the buildings that will be needed. It is contemplated that an armory will be built at Butner to service the unit located there, and the plan for the Academy includes making the armory large enough to serve the purposes of the Academy as well as the unit. Other structures that will be necessary include barracks.

#### X. REFORESTATION AT BUTNER

The cutting of timber under contract with the Prison Department and reforestation of the Butner acreage has been proceeding satisfactorily. The reforestation is being done after better preparation of the land by bulldozing than was originally contemplated.

Attached to and made a part of this report is the Final Report made to the Governor by Adjutant General John Hall Manning for the period January 1, 1957 to August 16, 1957. He deals in a thorough manner with operations at Butner as well as with the conditions under which the young men are called upon to render military service required by Federal law, and the protest raised by the National Guard to some of the directives. There is no need to duplicate this portion of the report, as General Manning covered it fully.

## XI. SERVICE SCHOOLS

The Service Schools which are open to the National Guard continue to be well attended by representatives from North Carolina. During 1957 and 1958, 305 officers and 387 enlisted men, an aggregate of 692, were enrolled in these schools.

The input for the calendar year 1957-1958 of enlisted men for the six months active duty training totaled 2,173 before the quota was withdrawn at the end of November.

## XII. SPECIAL DUTY TROOPS

On several occasions during the biennium units of the National Guard were called into State service because of emergency needs. In September, 1957, the Service Company, 119th Infantry, at Elizabeth City, was called upon to furnish fire-fighting aid to the State Forestry Service in Hyde County. Five officers and 31 enlisted men were on duty from August 14 through August 19. The unit set up a mess section near the State Forester Headquarters and fed three meals a day to approximately 250 men. Maintenance and transportation service also was rendered. The fire was centered in the Manns Harbor area of the County.

Two officers and 40 enlisted men of Company F, 119th Infantry, located at Tarboro, were ordered into the service of the State May 11, 1958, to report to the Sheriff of Edgecombe County and to render such assistance as might be requested in connection with evacuating personnel and property from the flooded area of the Tar River.

The emergency caused by Hurricane Helene resulted in a call to special State duty of National Guard forces from the following units: Company I, 119th Infantry, Wilmington; Battery C, 690th Field Artillery Battalion, Morehead City; Battery A, 130th AAA Battalion, Shallotte, and Headquarters and Headquarters Battery, 252nd AAA Group, Wilmington. These forces were engaged in the emergency service until the force of the storm was sufficiently abated to permit them to be relieved. A few Guardsmen remained on duty at exposed beaches for protection of property for several days following the passing of the storm.

## XIII. SIMPLIFIED FISCAL STATEMENT

The financial report of the operations of the Department is made on the fiscal year basis and the biennial report customarily is more than a year behind in presenting these fiscal exhibits

which have been audited. The audited reports for the fiscal year ending June 30, 1956 and that for the year ending June 30, 1957, are incorporated in this report to the Governor. A simplified operating statement for one calendar year is added here which gives a fairly clear indication of the sources and extent of income and the manner in which the funds are employed.

The figures in the following statement are a consolidation of the expenses of the Adjutant General's Department and the North Carolina Armory Commission for the full period of the calendar year 1958. For the sake of simplicity, the items have been rounded out to the nearest dollar and, therefore, to that extent are inexact.

For administration of the Adjutant General's Department, a total of \$122,072 was spent for the year, not including certain expenses in connection with the maintenance of installations that are listed below. It will be noted that the largest item—\$306,021—in the State's appropriation for the year was distributed to the officers, warrant officers and National Guard units throughout the State.

Attention is directed to the fact that in the operation of the Department we had the benefit of \$58,506 Federal contribution.

To the operations of the Armory Commission, the State contributed \$44,175, local governments contributed \$78,178, and the Federal Government \$298,264. The State's direct share of the expenditures of the Armory Commission was a small part, percentage-wise.

The item shown as the cost of the reforestation at Butner is listed as self-sustaining because that money came from the sale of timber from the reservation itself.

The exhibit also shows the expenditure of Federal funds channelled through the United States Property and Fiscal Office in the support of full-time employees of the National Guard throughout the State, and Federal pay for drilling disbursed through Third United States Army Headquarters, at Fort McPherson.

**REPORT**  
**OF**  
**THE ADJUTANT GENERAL**  
**OF THE**  
**STATE OF NORTH CAROLINA**

**FOR THE PERIOD 1 JANUARY 1957—16 AUGUST 1957**

---

To: His Excellency, The Governor of North Carolina and Commander-in-Chief of the State Military Forces, State Capitol, Raleigh, North Carolina.

Sir: Submitted herein is a report of the operation of the Adjutant General's Department for the period 1 January 1957—16 August 1957.

At the beginning of the year 1957, the most important matter concerning the Army National Guard was the announcement by the Secretary of Defense that all non-prior-service men enlisting on and after 1 April 1957 would be required as a condition of their enlistment to take six months active duty for training. Both the National Guard Association of the United States and the Adjutants General Association very strongly opposed this requirement. It was the consensus of opinion that this requirement would deny to the Army National Guard its principal source of manpower, which was the 17 to 18½ year old group whose members were induction deferred so long as they performed satisfactorily their duties as members of the National Guard. We were convinced that parents who had planned an educational career for their sons would not permit enlistment in the National Guard and have the educational career interrupted by six months active duty training.

The Commander, Continental Army Command, Fort Monroe, Virginia, called a conference of Adjutants General and Division Commanders on 22 January 1957. The National Guard Association of the United States requested the National Guard officers and the Adjutants General attending this conference to convene in Washington on 23 January 1957 for the consideration of the six months training directive. After considerable discussion, in which

vigorous opposition to the directive of the Secretary of Defense was expressed by many officers, the conference, without a dissenting vote, went on record as favoring the following proposals:

1. All men age  $18\frac{1}{2}$  to 25 years who enlist on or after 1 April 1957 be required to take six months active duty training as a mandatory condition of their enlistment.
2. All men age 17 to  $18\frac{1}{2}$  years who enlist on or after 1 April 1957 be required to take 11 weeks of active duty for training as a mandatory condition of their enlistment, and may volunteer for the six months active duty training.
3. All men age 17 to  $18\frac{1}{2}$  years who may have enlisted before 1 April 1957 be permitted to choose either 11 weeks or six months active duty training on a volunteer basis.
4. That there be no ratio imposed upon the National Guard as to the number of men to participate in either the 11 weeks program or the six months program.

This program was presented to Sub-Committee No. 1 of the House Armed Services Committee, of which The Honorable Overton Brooks of Louisiana was Chairman. After hearings had begun, many conferences were had with representatives of the Department of the Army, which resulted in a "Memorandum of Understanding"—a most important document for the National Guard. The Honorable Carl Vinson of Georgia, Chairman of the House Armed Services Committee, is entitled to full credit for this "Memorandum of Understanding". He was ably assisted by Mr. Brooks. The "Memorandum of Understanding" was approved by Sub-Committee No. 1 and then referred to the full House Armed Services Committee. It was agreed to by this Committee by a vote of 27 to 2 on the 5th day of March, 1957, and is of such consequence that the full text is given, as follows:

"Memorandum of Understanding Regarding the Army National Guard and Army Reserve's 6 Months Training Program.

"(1) Until January 1, 1958, persons between the ages of 17 and  $18\frac{1}{2}$  may enlist in the National Guard for 11 weeks of active duty training and the remainder of the unexpended portion of the obligation is to be spent in the National Guard (Ready Reserve), where active participation will be required, provided, persons entering the 11 weeks training program

must have enlisted in such program on a date sufficiently prior to January 1, 1958, to insure completion of 11 weeks of training by January 1, 1958.

“(2) Persons within the age group 17 to 18½ who voluntarily perform 6 consecutive months active duty training will only be required to serve 3 years in addition to the 6 months active duty for training in the National Guard (Ready Reserve) where active participation will be required. At the end of that period they may be transferred to the Standby Reserve for the remaining 4½ years of their total 8-year obligation. It is understood, however, that these young men may remain in the National Guard, if acceptable, and if they volunteer to do so.

“(3) Beginning January 1, 1958, all persons enlisting in the National Guard between the ages of 17 and 18½ will be required to perform 6 months of active duty for training, and the 11 weeks active duty training course will be discontinued. The Ready and Standby Reserve obligations will be the same as set forth in the foregoing paragraph, 6 months active duty for training, 3 years Ready Reserve, and 4½ years Standby Reserve.

“(4) Persons between the ages of 18½ through 25 entering in the National Guard will be required to perform 6 months of active duty training to be followed by 5½ years service in the National Guard (Ready Reserve) where active participation will be required.

“(5) Persons in a deferred status, age 26 and over, who possess qualifications in a technical or scarce military occupation specialty, under regulations prescribed by the Secretary of the Army, and members of the Alaska Scouts will not be required to undergo active duty for training upon enlistment in the National Guard but may volunteer to do so.

“(6) It is agreed that the size of the Army National Guard shall be maintained at an authorized strength of approximately 400,000 for the remainder of fiscal year 1957 and fiscal year 1958, and thereafter at such greater or lesser strength as may be determined in annual appropriations of the Congress, and it is agreed to use every means to maintain the guard at approximately the determined figure. The Army agrees to provide sufficient spaces in the 6 months

training program to allow the National Guard to reach this figure, taking into consideration the input into the guard from other programs.

“(7) Persons enlisting while satisfactorily pursuing a full time course of high school instruction may have their active duty for training deferred for a period of not more than 1 year in order not to interrupt their high school course of instruction; provided, that persons enlisting for 11 weeks of active duty for training may be deferred from entrance on such active duty for training until their graduation; provided, they will complete their active duty for training prior to January 1, 1958.

“(8) It is agreed that everything possible will be done to maintain the Army National Guard at its appropriated strength, *supra*, including the following actions:

“(a) Recruitment of persons between 17 and 18½ years of age for either 11 weeks or 6 months active duty for training as set forth in paragraphs 1 and 2, *supra*.

“(b) Recruitment of persons age 18½ through 25 for the 6 months of active duty for training as set forth in paragraph 4, *supra*.

“(c) Recruitment of persons age 25 through 35 as set forth in paragraph 5, *supra*.

“(d) Nonassignment of prior service personnel to the United States Army Reserve for a period of 60 days subsequent to their release from active duty during which time the Army National Guard shall have exclusive opportunity for recruitment of such personnel.

“(e) Recruitment for the Army National Guard will be accomplished by the Regular Army Recruiting Service on the same basis as recruitment for the active establishment and the Army Reserve.

“(f) As a last resort, the prerelease of personnel on active duty.”

Appropriate action was taken requesting the assistance of the United States Army Recruiting Service, and the mutually agreeable plan for this cooperation was worked out very quickly. It was progressing most satisfactorily when the Chief, National Guard Bureau, advised the Adjutant General that the enlisted

strength of the North Carolina Army National Guard would have to be reduced to 10,710 by 30 June 1957 in order to bring the over-all strength of the Army National Guard within the year-end strength ceiling of 425,000 fixed by the Congress. This directive meant that our Army National Guard would have to show a net loss of at least 187 men during the month of June; consequently, our units could not avail themselves to the maximum extent of the assistance which the Army Recruiting Service was rendering. With the normal losses by enlistment in the regular services, accepting employment which makes drill attendance impossible, and change of residence, it is believed that the assistance of the Army Recruiting Service will be a big factor in enabling our Army National Guard to maintain its enlisted strength through the present fiscal year of 10,710.

Beginning with January, 1957, the input of men into the six months active duty training program showed a material increase. As of 31 July 1957 the Army National Guard had a total input into his program of 900 men, and a total input into the 11 weeks active duty training program of 110 men. For the month of August, the input into the six months active duty training program is 67 and the input into the 11 weeks active duty training program is 3. By the end of August, 1957, we will have had a total input into the six months active duty training program of 967, and a total input into the 11 weeks active duty training program of 113, for a grand total of 1,080. 43 men have had their entry into the six months training program deferred, and 10 have had their entry into the 11 weeks active duty training program deferred. This latter group must enter the 11 weeks training program not later than the first week in October, as this program terminates on 1 January 1958, and thereafter all active duty training will be in the six months training program.

The Department of Defense and the Department of the Army vigorously insisted upon the six months active duty training program for all non-prior-service men enlisting in the Army National Guard. Neither, apparently, gave any consideration to the cost of this program and made no provision in its appropriation request to the present Congress for the money necessary for the input of six months trainees which would be required to maintain the Army National Guard at a minimum acceptable strength of 400,000. Largely through the efforts of the National Guard Association, the Congress provided the money for 14,500 six months trainees during the present fiscal year, including those now in

training, when conservative estimates placed the required input at 50,000 if the National Guard is going to meet the requirements of the Department of Defense and the Department of the Army. The Chairman of the House Appropriations Sub-Committee for the Armed Services indicated that this item would be increased if the Department of Defense recommended it, but the Secretary of Defense, who has been so outspoken at times, elected to remain silent when he should have spoken in order to obtain for the Army National Guard the money needed to meet the requirements which he, himself, had promulgated. To National Guardsmen, this was one more indication by the Secretary of Defense of his lack of familiarity with the National Guard, its status in the first line of defense of the nation as a well trained effective force for use in an emergency, and the outstanding record made in the wars in which the nation has been engaged.

The Army National Guard, therefore, is confronted with a maintenance of strength problem which may become quite serious during the present fiscal year. When available funds for the six months training program are obligated, non-prior-service men may continue to be enlisted, but if funds are not available for them to enter the six months training period within 120 days from the date of their enlistment, these men must go on a non-pay armory drill status for the remainder of the fiscal year if the Secretary of Defense does not change his directive. However, beginning 1 March 1958, the input date into the six months training program would not come until after the beginning of fiscal year 1959, and we would have to gamble on the next Congress to appropriate money to continue the six months training program for the fiscal year which begins 1 July 1958.

Only time will reveal the manner in which these problems will be solved. If the requirement that a non-prior service enlistee must enter the six months active duty training program within 120 days from his enlistment is removed, it is believed that the National Guard will have no difficulty in maintaining its strength. Irrespective of this, the problem would be solved if the next Congress appropriated sufficient money for all non-prior-service men to enter the six months training program within the required 120 days should that come before the end of the present fiscal year, as well as to provide for those enlistees who would enter the six months training program during the next fiscal year.

A study has been under way in the Office of the Secretary of Defense for nearly a year of the entire reserve program of the

armed forces. Apparently, the necessity for this study was impelled by the development of new weapons and the organization of the Regular Army Infantry and Armored Divisions as Pentomic Divisions. Radical changes have been made in the infantry division organization, reducing the number of units materially, increasing very materially the size of units, and reducing the over-all strength of the division to slightly under 14,000 officers and men. Insofar as the Army National Guard is concerned, it is believed that the troop basis promulgated in the approved War Department Policies of 15 October 1945 will be very materially revised. It would not be surprising if the over-all strength of the National Guard is reduced. All indications point up that the thinking in Washington is placing more emphasis and responsibility on the United States Air Force and the United States Navy and much less emphasis and responsibility on the part of the Army. The recent reduction in strength of the armed forces, ordered by Mr. Wilson, the Secretary of Defense, adds weight to this opinion when the Regular Army is ordered to reduce by 50,000 men, the United States Air Force by 25,000 men, the United States Navy by 15,000 men, and the United States Marine Corps by 10,000 men. The appropriations made by the present Congress for the next fiscal year give the largest share to the Air Force, the next to the Navy, with the Army receiving about one-half of the amount appropriated for the Air Force. We must await the result of the study referred to above and the promised announcement of the troop basis for the reserve components around 1 January 1958.

#### **GROWTH IN STRENGTH, NORTH CAROLINA ARMY NATIONAL GUARD**

On 31 March 1957 the North Carolina Army National Guard attained a strength of 12,024 officers and men, the 30th Infantry Division having 10,450. This is the largest National Guard in the history of the State. It was made possible because the "Memorandum of Understanding" gave the young men of our country a firm program to which they could look and make their choice. The Army National Guard reached a strength of 435,000, by far the largest Army National Guard in the nation's history. Reduction in strength had to occur before the end of the fiscal year for the reason heretofore pointed out.

## CAMPS OF INSTRUCTION, 1957

The 30th Infantry Division, less Armored and AAA Units, under the command of Major General Claude T. Bowers, Warren-ton, engaged in field training at Fort Bragg, North Carolina, during the month of June, and the Armored and AAA Units engaged in field training at Fort Stewart, Georgia, at the same time. All units of IV Corps Artillery engaged in field training at Fort Stewart, Georgia, 11-25 August. The field training of the 30th Infantry Division at both Fort Bragg and Fort Stewart was eminently satisfactory in every respect. The field training period at Fort Bragg was marred, however, by the death of two members of the Hq Co, 2nd Bn, 120 Infantry, Kannapolis, as the result of a very severe electrical storm when they were killed by lightning and a number of other men received severe shocks.

The field training at Fort Stewart, Georgia, was marred by the death of two men who were members of Hq & Svc Co, 130th Tank Battalion, Red Springs, who were killed in an automobile accident late one night while returning to Fort Stewart, Georgia, from Savannah. Another member of this unit was severely injured in this accident.

Prior to the field training period of 1957, the North Carolina National Guard had had only one fatality during the field training in nine years—1948-1956, both inclusive—although our units traveled to Fort Jackson, South Carolina, to Fort McClelland, Alabama, to Fort Stewart, Georgia, and to Fort Bragg, North Carolina.

The Air National Guard had a most successful field training period at Travis Field near Savannah, Georgia. This field training period, however, was marred by the crash of a T-33 Jet Plane, but most fortunately both occupants escaped alive. Captain William C. Polk, Jr., Pilot, received a compressed vertebra in the lower lumbar region, but Lt John B. Garland, the Co-Pilot, escaped with only a few minor scratches.

## SERVICE SCHOOLS

The officers and men of our Army National Guard continue to avail themselves of the opportunity to improve their military education through attendance at Service Schools. The demand for attendance at Service Schools was so great in the spring of 1957 that the Adjutant General had to call the National Guard Bureau on five different occasions requesting additional funds

for this part of our training. Fortunately, the Bureau was able to provide this additional money and, as a result, we received approximately \$100,000 for this purpose over and above the amount allotted to us for this item for the fiscal year. Our men who have completed the six months active duty training are beginning to return to their units, and as this flow of trained men back into the units continues, the level of training of our National Guard units will be raised considerably. So long as funds are available for our officers and men to attend the Service Schools and for our non-prior-service men to take six months active duty training, we will have a constantly improved training status in our National Guard units, and before very long all of our units will have well trained men in them and prepared for their mission in the event of a national emergency.

#### SENIOR ARMY ADVISOR

Colonel W. H. G. Fuller, 0 19 190, Infantry, reported as Senior Army Advisor on 1 July 1957. He replaces Colonel Charles G. Cooper, Infantry, who is shortly scheduled for retirement. The North Carolina National Guard is pleased to have Colonel Fuller as its Senior Army Advisor and I believe that his tour of duty will be of considerable value to the North Carolina Army National Guard.

As this is the last report which I shall submit as Adjutant General of North Carolina, I would be derelict in my duty if I did not take this occasion to pay proper tribute to the services of the Regular Army Officers, Warrant Officers and non-commissioned Officers who have served as Advisors to our National Guard during the period of my service as Adjutant General. I have found them to be interested in the North Carolina National Guard. Many of them came to us without having served with National Guard units and with very inaccurate and misleading information with respect to the National Guard. I am very happy to record that their minds were quickly disabused of these false impressions and they found the North Carolina Army National Guard to be an organization very much worth while and one that merited the whole-hearted support of the Department of the Army. Several of them stated to me that every graduate of the United States Military Academy should be required to serve a tour of duty with the National Guard in order that he might observe first-hand the National Guard and see for himself how much worth while it is. The Advisory Group has been most willing at

all times to aid and assist, to counsel and advise, and its members to give of their time most generously in off-duty hours to serve the unit or units to which they were assigned. To these officers, warrant officers and non-commissioned officers we are most grateful. We owe them our thanks and our gratitude, and it gives me much pleasure to record the appreciation of the North Carolina Army National Guard for their services.

#### UNITED STATES PROPERTY AND FISCAL OFFICER

Colonel John Foreman has continued his high standard of performance as United States Property and Fiscal Officer. He is assisted by an able and efficient staff. Although his Supply and Records Section is located on Western Hillsboro Street and his Warehouse at Butner, and the remainder of his staff on the ground floor of the Justice Building, Colonel Foreman has been able to coordinate these activities to the extent that the work of his office operates with exceptional smoothness and efficiency.

Projects for the construction of a Combined Field Maintenance Shop and a new Warehouse at Butner have been pending for more than three years. The Combined Field Maintenance Shop has been approved, and the National Guard Bureau is awaiting apportionment of funds by the Director, Bureau of the Budget, when it will grant authority to proceed with this project by authorization of an architect-engineer contract. The Warehouse project has been approved by the Department of the Army and is in the Office of the Secretary of Defense. These two projects will be constructed on land owned by the State at Butner and will be supported with 100% Federal funds. The estimated cost of the Combined Field Maintenance Shop, completed project, is \$491,814.00, and the estimated cost of the Warehouse, completed project, is \$410,647.00. Two oil and flammable storage buildings are included in these projects at an estimated cost of \$7,392.00. The total estimated cost of these very badly needed facilities is \$909,853.00.

#### STATE MAINTENANCE OFFICER

Major Louis H. Davis, State Maintenance Officer, has continued to perform his duties with unusual and outstanding ability. The results of the Annual Technical Inspection have just been tabulated, and this tabulation discloses that our Army National Guard units received the following ratings on the different classifications of equipment issued: Superior, 942; Excellent, 30; Good, 2; Fair,

1; Unsatisfactory, 1. 95.6% of all ratings was Superior. This is truly a remarkable record and is a splendid tribute to the co-operation which Major Davis has obtained from all units and the high standard of maintenance which prevails throughout the Army National Guard.

#### AIR NATIONAL GUARD

On 1 July 1957 the North Carolina Air National Guard underwent a very material reorganization. All units of the 123rd Air Base Group and the 8156th Replacement Training Squadron were deactivated and the following units were activated: Hq, 145th Fighter Group (Air Defense); 145th Air Base Squadron; and 145th Material Squadron. These units, together with the Hq, North Carolina Air National Guard, the 156th Fighter Interceptor Squadron, and the 156th Weather Flight (Tactical Forecasting) now constitute the units of the North Carolina Air National Guard at Morris Field, Charlotte. The 145th USAF Dispensary will be activated as soon as a qualified medical officer can be obtained.

The Air Division, National Guard Bureau, continues to support our Air National Guard, and we have assurances that an administration building will be authorized during the present fiscal year. With the completion of the approved projects and the construction of the administration building, our Air National Guard units at Charlotte will be adequately provided with the facilities essential for efficient operation.

#### ARMY AND AIR NATIONAL GUARD STRENGTH

The Army National Guard ended the fiscal year 30 June 1957 with an aggregate strength of 11,606 officers, warrant officers, and enlisted men, of which 10,080 were in the 30th Infantry Division and 1,433 were in IV Corps Artillery. The Air National Guard ended the fiscal year with a strength of 742 officers and airmen. This gives us a total end-of-the-fiscal-year strength of 958 officers, 120 warrant officers, and 11,270 soldiers and airmen, for an aggregate strength of 12,348.

#### NATIONAL GUARD ARMORIES

Since 1 January 1957 contracts have been let for the construction of armories at Asheboro, Mount Airy, St. Pauls, and Snow Hill. At the time of the writing of this report, we have armories

under construction at Fair Bluff, Southern Pines, Newton, Rocky Mount, Asheboro, Mount Airy, St. Pauls, and Snow Hill.

The 1957 General Assembly appropriated for the North Carolina Armory Commission the sum of \$450,000.00 for the biennium beginning 1 July 1957 as the State's share of National Guard armory construction. This appropriation will be handled under the provisions of the Special Appropriations Act of the 1955 General Assembly (Ch. 1347, 1955 Session Laws). The National Guard Bureau has obligated or earmarked all armory construction funds which have been appropriated by the Congress. The 1957 Congress has not yet made an appropriation for armory construction for the present fiscal year. Until this appropriation is made, it is impossible to determine how much Federal matching funds will be allocated to the State of North Carolina. It is apparent, however, at this time that the Congress will not appropriate a sufficient amount of Federal funds to match available state funds. The Adjutants General reported to the National Guard Bureau on 15 June 1957 that they would have state matching funds in the amount of \$35,000,000.00. This would require a Federal appropriation of \$105,000,000.00 to match all available state funds for armory construction. This sum is much more than the Congress has appropriated for this purpose in any one fiscal year, and would involve much more construction than the National Guard Bureau could possibly handle. It is hoped, however, that the Congress will appropriate a least \$35,000,000.00 for armory construction for the present fiscal year. This will permit only one-third of the armory construction which we are prepared to do in North Carolina with State matching funds, including the contributions to armory construction to be made by cities or towns and/or counties.

#### BUTNER REFORESTATION PROJECT

In July, 1956, the Armory Commission engaged in a reforestation project at Butner in cooperation with the Prison Department, State Highway and Public Works Commission. A contract was executed for the cutting of pulpwood and merchantable pine and hardwood saw timber. The major portion of this work has been completed but 153,000 board feet of the merchantable saw timber has not yet been sold. It is believed that the proceeds from the sale of pulpwood and merchantable saw timber will yield approximately \$30,000.00. During the winter of 1956-57, 25,000 Loblolly Pine Seedlings were planted under contract with the

Prison Department, State Highway and Public Works Commission.

A long range reforestation project has been submitted to and approved by the Armory Commission, and an order has been placed for 337,000 Loblolly Pine Seedlings to be planted during the fall and winter of 1957-58, with the Prison Department supplying the labor. It is contemplated that an additional 225,000 Loblolly Pine Seedlings will be planted during the fall and winter of 1958-59. Additional reforestation work is contemplated under the arrangement between the Commission and the Prison Department.

Recently, the Commission executed a contract with the Prison Department for the cutting of pine trees suitable for poles and piling which have pieces of shrapnel or bullets imbedded in them which make these trees unsuitable for saw timber. This contract also covers cull hardwood, such merchantable pine saw timber as should be removed as an incident to the other operations, together with an estimated 20,000 board feet of red cedar. Mr. Wessell, the Prison Department Forester, and the Forestry Division, Department of Conservation and Development, headed by Mr. Hicks, are of the opinion that, with proper forestry management, long range planning will enable the Butner Military Reservation to yield approximately one million board feet of timber per year for an indefinite period. It will, however, require some years for the annual timber production to reach this figure.

The Armory Commission contemplates some permanent improvements in two bivouac areas with the erection of two kitchens, an incinerator and a sump in one area, and three kitchens, an incinerator and a sump in another area. These facilities will add materially to the week-end drilling of National Guard units engaged in rifle marksmanship at Butner. Detailed plans for these projects are being prepared.

#### CONCLUSION

This report not only covers matters which have occurred since 1 January 1957, but has been prepared for your information and the information of my successor in an effort to record the status of many matters which will require his consideration.

I would be remiss in my duty if I failed to pay proper tribute to the Staff of the Adjutant General's Department whose members have served so faithfully and so efficiently during my service as Adjutant General. To Lt Colonel Thomas B. Longest,

who handles matters pertaining to organization, training and schools; to Lt Colonel David W. Donovan, who handles matters pertaining to personnel; to Major Willard R. Bloxton, who handles all matters pertaining to the Air National Guard, supervises and assists in all matters pertaining to Army Aviation and handles personnel matters within the Department; to Lt Colonel Charles S. Manooch, Jr., who handles matters pertaining to recruiting, public relations, radio, television, newspapers, and publicity, generally; to Mr. Howard Cooke, our Budget Officer. I am deeply indebted for their loyalty and the very fine service which they have been rendering to the North Carolina Army and Air National Guard. To Miss Evie W. Freeman, who has been an employee of the Adjutant General's Department for more than thirty years and its Chief Clerk most of that time, and Mrs. Ruth W. Moring, my secretary, I owe a great deal for their most loyal and efficient service. We could not have operated the Adjutant General's Department without the clerical staff, who have given most generously in their effort to carry the very heavy work load. Unfortunately, we have frequent changes in this staff but, in spite of this, our clerical staff has been able to render splendid service in the accomplishment of the detailed work incident to the operation of this Department. Lt Colonel Neil J. Pait and Warrant Officer Wesley Bryan have been additions to the staff of the Adjutant General's Department, with their salaries paid from Federal funds, and they are performing valuable and worth while services.

At your request on 12 July 1957, I submitted my resignation as Adjutant General of the State of North Carolina, to be effective 18 August 1957. Later, at your request, I changed the effective date of my resignation to 3:00 p.m., 16 August 1957. I turn over to my successor an Army and Air National Guard that is better trained, better equipped, and better prepared to serve the community, State and Nation than at any time in its entire history.

Respectfully submitted,

JOHN H. MANNING  
Major General  
The Adjutant General

16 August 1957

DEPARTMENT OF ADJUTANT GENERAL

Raleigh, North Carolina

REPORT ON AUDIT

Year Ended June 30, 1956

Major General, John Hall Manning, Adjutant General

**Department of State Auditor  
Bureau of Institutional and Departmental Auditing  
Raleigh, North Carolina**

The Advisory Budget Commission  
Raleigh, North Carolina

Gentlemen:

We have made an examination of the accounts and records of the

**DEPARTMENT OF ADJUTANT GENERAL**

Raleigh, North Carolina

for the fiscal year ended June 30, 1956 and submit herewith our report.

Shown on Exhibit "B" is a statement of appropriation and expenditures of the North Carolina Armory Commission. This Statement shows there was transferred from this fund \$125,000.00 during the year under review and \$838.52 at the end of the year to the North Carolina Armory Commission permanent Improvement Fund of 1951, thereby closing out the fund.

Exhibit "C" shows the operations of the North Carolina Armory Commission Permanent Improvement Fund of 1951. There remained in this fund a balance of \$137,764.88 at June 30, 1956.

Exhibit "D" shows the operations of the North Carolina Armory Commission Permanent Improvement Fund of 1953 from July 1, 1955 to Sept. 30, 1956.

Exhibit "E" is a statement of the capital assets of the North Carolina Armory Commission. This Statement shows the property that the Armory Commission actually held title to on June 30, 1956. The Commission has other property leased.

We found all receipts as disclosed by the Records had been properly deposited with the State Treasurer. All disbursements were evidenced by properly signed checks and their records were in agreement with the State Treasurer.

We inspected a representative number of Pay Rolls, Invoices and other items supporting expenditures and found them all properly classified and accounted for.

We wish to express our appreciation to the personnel of the Department for the courtesies extended us during this assignment.

Respectfully submitted,

HENRY L. BRIDGES, State Auditor  
Prepared by Jno. W. Ives

Department of State Auditor  
Bureau of Institutional and Departmental Auditing  
Raleigh, North Carolina

The Advisory Budget Commission  
Raleigh, North Carolina

Gentlemen:

We have made an examination of the accounts and records of the

DEPARTMENT OF ADJUTANT GENERAL

Raleigh, North Carolina

for the fiscal year ended June 30, 1957.

Shown on Exhibit "B" is a statement of appropriation and expenditures of the North Carolina Armory Commission. This statement shows there was transferred from this fund \$3,308.23 at the end of the year to the North Carolina Armory Commission permanent Improvement Fund of 1951 thereby closing out the fund.

Exhibit "C" shows the operation of the North Carolina Armory Commission Permanent Improvement Fund of 1951. There remained in this fund a balance of \$60,430.01 at June 30, 1957.

Exhibit "D" is a statement of the capital assets of the North Carolina Armory Commission. This statement shows the property that the Armory Commission actually held title to in June 30, 1957. The Commission has other property leased.

We found all receipts as disclosed by the records had been properly deposited with the State Treasurer. All disbursements were evidenced by properly signed checks and their records were in agreement with the State Treasurer.

We inspected a representative number of pay rolls, invoices and other items supporting expenditures and found them all properly classified and accounted for.

We wish to thank the personnel of the Department for the courtesies extended us during this assignment.

Respectfully Submitted,

HENRY L. BRIDGES, State Auditor

Prepared by J. W. Ives

Approved:

M. L. Widenhouse, C.P.A.

# REPORT OF U. S. PROPERTY AND FISCAL OFFICER

FISCAL YEARS 1957 & 1958

6 August 1958

To The Adjutant General of the State of North Carolina:

The report of the USP&FO for North Carolina for the fiscal years 1957 and 1958, beginning 1 July 1956 and ending 30 June 1958 is respectfully submitted.

During this period implementation of a financial inventory accounting system and a standard system of stock control, as required by the National Guard Bureau, and similar to that used by the active Army, has been accomplished.

Continued emphasis has been placed on improving our support of the using units, conservation of property, disposal of excess property, and the obtaining and issuing of items of equipment, clothing and supplies essential for the training and transportation of units.

The USP&FO's activities consists of two (2) offices in Raleigh, warehouses and distribution center at Butner for the Army National Guard, and a warehouse and office at Douglas Air Base at Charlotte for the Air National Guard.

There are a total of sixty (60) full-time employees in our activities in Raleigh and Butner, and seven (7) in Charlotte, most of whom are members of the North Carolina National Guard. This personnel performs the missions required by laws, regulations, and directives for which the USP&FO is responsible. A list of these missions is contained in Appendix A of this report.

## LOGISTICS

During the period of this report sufficient  $\frac{1}{2}$  ton commercial type pickup trucks were obtained to replace the military type vehicles used by administrative personnel of the using units and Army advisors. Additional  $2\frac{1}{2}$  ton cargo trucks and two (2) additional commercial type buses were received. These additional vehicles enabled all units to move to and from their field training site this year by organic transportation, thus realizing a saving of \$16,332 expended for commercial bus transportation of personnel during the 1957 field training period.

Sufficient M33 Fire Control Systems and modern anti-aircraft guns were obtained during FY 1958 to replace the obsolete equipment in the 150th AAA Bn. Five-ton trucks were also obtained to tow this equipment. Additional 155 mm howitzers and five-ton trucks were obtained to complete the 295th and 690th FA Bns with this type equipment.

Surplus steel landing mats were obtained from the U S Air Force to stabilize the vehicle storage area at Butner and the Army aircraft parking area at the Raleigh-Durham installation.

Other items of Chemical, Engineer, Medical, Ordnance, Quartermaster, Signal and Transportation Corps equipment and supplies were obtained to equip and support the using units and augment the State N G radio network.

During this period the Supply Division processed the following number of property vouchers and units' requisitions and turn-in documents:

	FY 1957	FY 1958
Property Vouchers -----	32,433	55,913
Requisitions -----	21,202	31,299
Turn-Ins -----	3,903	15,118

Additional activities of the Supply Division and other sections are contained in Appendix B of this report.

The total value of Federal property (equipment and supplies) in the State during this period was as follows:

	FY 1957	FY 1958
Army National Guard -----	\$18,814,280	\$22,580,894
Air National Guard -----	6,724,714	7,344,133
Total -----	\$25,538,994	\$29,925,027

### CONSERVATION OF PROPERTY

Conservation of property has been stressed by published instructions, classes conducted by personnel of this office, articles in THE TAR HEEL GUARDSMAN, and assistance from the Army Advisors. The quantity of property turned in by using units to our Butner warehouse for salvage has been considerably reduced since the program for reduction was implemented November 1955, at which time salvage was running over \$16,000 per month. The monthly average for FY 1957 was \$5,620 and for FY 1958 it was \$5,479 or an average of \$38.86 per unit.

Most units have reduced the quantity of property lost; however, there are some units that continue to have excessive losses. This can be attributed directly to inefficient command supervision by unit commanders and their immediate commanding officers. Results of inventories conducted by our auditors are as follows:

	FY 1957	FY 1958
Number of units inventoried -----	111	161
Number of units with no property shortages -----	14	29
Total value of property shortages -----	\$10,429.94	\$ 8,525.86

Shortages of post, camp, and station type property which was borrowed from the active Army during calendar year 1958 field training period was less than in previous years. The average shortages for the 30th Inf Div was \$1.27 per unit and \$1.44 per unit for the non-divisional units.

### SUPPORT OF USING UNITS

Establishment of the Equipment Exchange Shop at our Butner warehouse was accomplished 1 July 1957 and has operated to a distinct advantage for the using units in obtaining serviceable items of clothing and equipment by direct exchange of unserviceable like items. This procedure

eliminates considerable time, effort, and paper work for the using units and for our office and expedites receipt of serviceable items by the using units.

During FY 1958 all units were placed on schedule for the monthly delivery and pick up of property by trucks of our Butner warehouse. This procedure eliminates time consuming trips to Butner by units' personnel.

During the fall and winter of 1957 our Supply Officer and our Chief Auditor conducted classes of instruction throughout the State for unit personnel in supply procedures and maintenance of property records. These classes were attended by all units ASTs and many Officer Staff Assistants, Army Advisors, and units' supply personnel.

### **VEHICLE STANDBY STORAGE COMPOUNDS**

In accordance with the policies of the National Guard Bureau for decentralization of standby storage of Army vehicles now stored at the Butner concentration site, this office during the period of this report planned, developed, and negotiated contracts for projects which have been completed at locations throughout the State, as indicated in Appendix C, for standby storage of these vehicles at battalion level.

Additional requirements have been forwarded to the National Guard Bureau for the construction, during FY 1959, of a total of 117,400 sq ft of sheds at these sites for the protection of vehicles. Estimated cost of this construction is \$557,650.

### **ORGANIZATIONAL MAINTENANCE SHOPS**

Construction of an organizational maintenance shop at Youngsville was completed during CY 1957. Plans and specifications are being formulated for the conversion of present motor vehicle storage building to organizational maintenance shops at Charlotte, Wilmington, Asheboro, Clinton and Red Springs. Requirements were forwarded to the National Guard Bureau during FY 1957 for the construction during FY 1960 of organizational maintenance shop buildings at Fayetteville, Greensboro, High Point, and Kinston. Requirements for this type construction at New Bern have been in the Bureau for several years.

### **FISCAL**

Federal funds were expended for the support of the National Guard in the amount of \$9,352,164.68 during FY 1957 and \$8,034,846.81 during FY 1958. Itemized expenditures are contained in Appendix D of this report.

### **INSPECTIONS & AUDITS**

During the period of this report our activities were inspected twice by the Third U S Army Inspector General. 25-28 February 1957 inspection rating: SUPERIOR. 31 March-3 April 1958 inspection rating: SUPERIOR.

Vehicles and equipment used at the Butner warehouse were inspected twice by Third Army Technical Inspection Teams.

13 December 1956 inspection rating: SUPERIOR

14 January 1958 inspection rating: SUPERIOR

The U S Army Audit Agency conducted audits of our activities 17 September 1956 and 7 October 1957. Only a few minor deficiencies were found which have been corrected. No ratings are given on audits.

My appreciation goes to the personnel of this office whose talents and diligent efforts have made possible these years of substantial progress. From this progress in the past and the continued efforts of this personnel comes the prospect of even greater progress in the years ahead.

JOHN FOREMAN

Colonel, NGB

USP&FO For NC

## APPENDIX A

## MISSION OF THE USP&amp;FO

1. **Support.** Furnish logistical support necessary for the organization, administration, and training of headquarters and units of the North Carolina National Guard by:

a. Requisitioning, receiving, storing and issuing equipment and supplies in accordance with laws, regulations, and directives of the Department of the Army and the National Guard Bureau;

b. Procuring supplies and services with Federal funds allotted to the North Carolina National Guard, and furnishing finance and fiscal service required in connection with payment of civilian pay rolls, field training pay rolls for non-divisional units, travel and other allowances authorized by laws and regulations;

c. Issuing bills of lading, transportation requests and meal tickets as required for transportation of Federal property and authorized travel of members of the North Carolina National Guard;

d. Acting as contracting officer on all formal Federal contracts for construction and supplies, except armory construction.

2. **Accounting and Audit.** Protect the interest of the United States and the State of North Carolina by:

a. Maintaining on prescribed forms a stock record account containing complete records as to receipt and disposition of Federal property, by item, and constituting a record of accountability for Department of the Army property in possession of the North Carolina National Guard;

b. Maintaining on prescribed forms a system of accounting and reporting on a monetary basis for all transactions relative to Federal property, properly segregated by technical services, ownership, category, condition and disposition, and regularly reconciling balances with the prescribed item accounting system;

c. Maintaining on prescribed forms a fiscal account containing complete records of allotments, obligations and expenditures of Federal funds allotted to the North Carolina National Guard;

d. Preparing and furnishing a property record for each unit and activity, assigning an account number, and maintaining a jacket file of collateral papers for each unit and activity;

e. Requiring units and activities to assemble, at such times and places as may be designated, all equipment and supplies for which they are responsible for the purpose of effecting an inventory and property settlement or transfer.

3. **Administrative.** Perform necessary administrative functions including maintenance of library and files, publications and correspondence, preparation and submission of required reports, and such similar functions as may be directed by the Chief, National Guard Bureau, and the Adjutant General of North Carolina.

4. **Advisory.** Act as technical advisor to the Adjutant General of North Carolina, the Commanding General of the 30th Inf Div and the IV Corps Arty, and other members of the North Carolina National Guard on all matters relative to Federal funds and property.

h. Value of C/D processed -----	\$ 11,636.45	\$ 7,283.10
i. Inventory Adjustment Reports processed	294	334
4. Purchase and Contract Section	FY 1957	FY 1958
a. Purchase & Delivery Orders processed ---	2,311	2,334
b. Contracts processed -----	26	6
c. Imprest Fund vouchers -----	137	189

\*Does not include last quarter of FY 1958

## APPENDIX C

## LIST OF COMPLETED PROJECTS &amp; LOCATIONS

## Army National Guard

1. Ahoskie
  - a. Stabilization and fencing of vehicle storage area.
  - b. Paving of concrete driveways to maintenance shop.
  - c. Construction of flammable material storage building.
2. Asheboro
  - a. Stabilization of vehicle storage area.
3. Butner
  - a. Construction of addition to flammable material building.
  - b. Obtaining steel mats for stabilization of vehicle storage area.
4. Charlotte
  - a. Stabilization and fencing of vehicle storage area.
  - b. Construction of flammable material storage building.
  - c. Erection and painting of Army aircraft hangar.
5. Clinton
  - a. Stabilization of vehicle storage area.
  - b. Installation of gasoline storage and dispensing facilities.
  - c. Construction of flammable material storage building.
6. Dunn
  - a. Stabilization and fencing of vehicle storage area.
7. Elizabeth City
  - a. Construction of flammable material storage building.
8. Goldsboro
  - a. Stabilization and fencing of vehicle storage area.
  - b. Installation of gasoline storage and dispensing facilities.
  - c. Construction of flammable material storage building.
9. Greensboro
  - a. Erection of Army aircraft hangar.
10. High Point
  - a. Stabilization and fencing of vehicle storage area.
  - b. Construction of flammable material storage building.
11. Kings Mountain
  - a. Stabilization of vehicle storage area.
  - b. Installation of gasoline storage and dispensing facilities.
  - c. Construction of flammable material storage building.

12. Kinston
  - a. Stabilization and fencing of vehicle storage area.
  - b. Construction of flammable material storage building.
13. Lenoir
  - a. Stabilization of vehicle storage area.
14. Red Springs
  - a. Stabilization of vehicle storage area.
15. Wilmington
  - a. Modification and renovation of theater building roof.
  - b. Stabilization of area around gasoline dispensing facilities.
16. Youngsville
  - a. Construction of Organizational Maintenance Shop building.
  - b. Construction of flammable material storage building.
  - c. Stabilization of vehicle storage area.

#### Air National Guard

1. Charlotte
  - a. Construction of motor service shop building.
  - b. Installation of vehicle gasoline storage and dispensing facilities.
  - c. Paving of area around motor service shop building.
  - d. Conversion and cleaning of aircraft fuel storage system.
  - e. Remarking of jet all-weather runway and marking of taxiway.
  - f. Installation of lighting system for jet parking apron and parking area.
  - g. Installation of roof gutter and downspouts on warehouse.

### APPENDIX D

#### ITEMIZED EXPENDITURE OF FEDERAL FUNDS

Listed below is itemized statement of expenditure of Federal funds for period of report.

	FY 1957	FY 1958

## EXECUTIVE AND SPECIAL ORDERS

Executive Order No 1, 16 Aug 57, appointment by the Governor of Capus Waynick as Adjutant General of North Carolina with the rank of Major General, effective 16 Aug 57.

Special Order No 186, 3 Oct 57, promoted Colonel Weston H. Willis to Brigadier General of the Line, NC ARNG, and reassigned him to command IV Corps Artiltery.

## DIGEST OF GENERAL ORDERS

### 1957

GO No 1, 11 Jan 57 reorganized National Guard units throughout State.

GO No 2, 23 Jan 57 announced annual inspection of the Air National Guard by Fourteenth Air Force.

GO No 3, 28 Jan 57 amended GO No 1 on reorganization.

GO No 4, 31 Jan 57 ordered personnel of Selective Service Section and Hq Hq Det into conference at Keesler Air Force Base.

GO No 5, 6 Feb 57 amended GO No 4 relative to personnel of the Selective Service Conference.

GO No 6, 11 Feb 57 amended GO No 3 as it pertains to the 105th Med Bn.

GO No 7, 12 Feb 57 authorized an increase in enlisted strength for 30th Repl Co.

GO No 8, 14 Feb 57 authorized change in maximum enlisted strength Hq Hq Co, 2nd Bn, 119th Infantry.

GO No 9, 14 Feb 57 authorized change in maximum strength, Hq Hq Det, 730th Ord Bn.

GO No 10, 11 Mar 57 authorized change in enlisted strength, Svc Co, 119th Inf.

GO No 11, 8 Apr 57 ordered Air National Guard into field training, Travis Field.

GO No 12, 10 Apr 57 stipulated regulations governing discipline of North Carolina National Guard.

GO No 13, 18 Apr 57 authorized change in maximum enlisted strength, Hq Co, 30th Inf Div, and Sep Det, Hq. Co, 30th Inf Div.

GO No 14, 6 May 57 ordered field training for 263rd Com Sq.

GO No 15, 16 May 57 ordered field training at Fort Stewart.

GO No 16, 16 May 57 ordered field training, Selective Service Section.

GO No 17, 16 May 57 ordered field training, Fort Bragg.

GO No 18, 4 Jun 57 ordered inactivation of six units of Air National Guard.

GO No 19, 4 Jun 57 ordered activation four units, Air National Guard.

GO No 20, 4 Jun 57 ordered reorganization 156th Ftr Intcp Sq.

GO No 21, 20 Jun 57 amended GO No 14 pertaining to mobilization, 263rd Com Sq Opns.

GO No 22, 16 Jul 57 ordered units into field training, Fort Stewart.

GO No 23, 23 Jul 57 ordered personnel of Selective Service Section into field training.

GO No 24, 14 Aug 57 ordered National Guard personnel on special forest fire duty.

GO No 25, 15 Aug 57, ordered Air National Guard personnel on special forest fire duty.

GO No 26, 16 Aug 57 ordered personnel of 119th Inf into special forest fire duty.

GO No 27, 21 Aug 57 ordered reorganization of Hq, NC Air National Guard.

GO No 28, 23 Aug 57 announced the death of Capt Earl Turner Edwards, Jr.

GO No 29, 26 Aug 57 amended GO No 24 pertaining to Svc Co, 119th Inf.

GO No 30, 26 Aug 57 assigned Major General Capus Waynick to State Hq Hq Det.

GO No 31, 3 Sep 57 rescinded GO No 14 and made assignments to Hq Hq Det.

GO No 32, 19 Sep 57 activated 145th USAF Dispensary.

GO No 33, 18 Nov 57 announced the schedule for general inspections by Third United States Army.

GO No 34, 20 Dec 57 revoked authority to attain full TOE enlisted strength.

### 1958

GO No 1, 2 Jan 58 ordered annual Fourteenth Air Force inspection, NC Air National Guard.

GO No 2, 20 Jan 58 amended GO No 1.

GO No 3, 11 Feb 58 ordered reorganization Army NG Units.

GO No 4, 20 Feb 58 amended GO No 3.

GO No 5, 6 Mar 58 relieved Air National Guard units from assignment to Fighter Interceptor Wing, Kentucky.

GO No 6, 10 Mar 58 authorized organization Med Det, Kinston.

GO No 7, 17 Mar 58 amended orders respecting Air National Guard units.

GO No 8, 21 Mar 58 amended GO No 3 with respect to two units.

GO No 9, 12 May 58 ordered personnel to flood control duty, State service.

GO No 10, 12 May 58 ordered 263rd Com Sq to field training.

GO No 11, 14 May 58 ordered National Guard field training, Fort Bragg.

GO No 12, 23 May 58 ordered field training Hq Hq Btry, 252nd AAA Gp, and 121st AAA Det into field training, Norfolk.

GO No 13, 27 May 58 ordered IV Corps Arty into field training, Fort Stewart.

GO No 14, 27 May 58 ordered Selective Service Section into field training.

GO No 15, 5 Jun 58 ordered reorganization Hq, Air National Guard.

GO No 16, 13 Jun 58 amended GO No 10.

GO No 17, 24 June 58 ordered Air National Guard into field training, Travis Field.

GO No 18, 24 Jun 58 ordered 156th Weather Flt, NC AFNG into field training.

GO No 19, 1 Jul 58 announced schedule of general inspections by Third United States Army.

GO No 20, 30 Jul 58 ordered reorganization Air National Guard units.

GO No 21, 19 Aug 58 appointment Lt Col Thomas B. Longest, Assistant Adjutant General of State.

GO No 22, 8 Sep 58 authorized increase Air National Guard units.

GO No 23, 29 Sep 58 ordered personnel on Special State duty, Hurricane Helene.

## HEADQUARTERS 30TH INFANTRY DIVISION

North Carolina Army National Guard

Raleigh, North Carolina

319.1

5 November 1958

SUBJECT: Report of Annual Active Duty for Training

TO: The Adjutant General  
State of North Carolina  
P. O. Box 791  
Raleigh, North Carolina

1. In compliance with paragraph 6, General Orders No 11, Adjutant General's Department, State of North Carolina, dated 14 May 1958, Report of Annual Active Duty for Training of the 30th Infantry Division, 8-22 June 1958, submitted.

2. PRE-CAMP PLANNING. Pre-Camp planning was initiated on the last day of the 1957 camp with submission of the After-Action Reports and Recommendations. The general planning was initiated following the Third U. S. Army Conference on 4-5 November 1957 at which time the dates and places of Field Training were announced. Following the Army conference a conference was conducted at this headquarters to establish the general training and logistical requirements for the training period. Representatives of all subordinate headquarters attended. The initial ammunition requirements were prepared during this conference. The third phase of planning was conducted as an on-site conference at Fort Bragg, N. C., on 24 January 1958. At this conference general policies and procedures for planning were firmed. From that date until arrival of the division at Fort Bragg on 8 June 1958 detailed planning was continuous. Detailed planning completed during the period 1 February- 8 June 1958 consisted in part of the following items:

a. Preparation and submission of requirements for expendable supplies to the USPFO for North Carolina.

b. Preparation and publication of a detailed training program.

c. Detailed request for training areas and ranges.

d. Preparation and submission of a communications plan.

e. Preparation of a detailed telephone installation plan.

f. Preparation and submission of request for training support.

g. Preparation and submission of request for loan of equipment not available within the State.

h. Coordination for loan of vehicles from and to the IV Corps Artillery.

i. Preparation and publication of march tables for all convoy movements.

j. A complete revision of the Division Administrative Instructions for field training.

k. A complete revision of the Division Signal Operation Instructions (SOI) and publication of a Signal Standing Instructions (SSI).

l. Preparation and submission of a billeting plan.

m. Monthly revision of ammunition requests.

n. Weekly liaison visits to Fort Bragg for coordination of the multitude of details involved in preparation for field training.

o. Preparation and publication of numerous administrative and logistical instructions to establish policy and procedures for camp.

3. MOVEMENT TO CAMP. Advance detachments arrived at Fort Bragg 4 June 1958. During the next four days equipment and training facilities were received by the Division. A 3-day Pre-Camp Mess School was conducted and school personnel fed members of the advance detachment. The main body moved into the Division area 8 June 1958. The entire movement was by military vehicle. No commercial transportation was employed.

#### 4. FIELD TRAINING PERIOD.

a. Attendance. For the first time since the 30th Infantry Division was reorganized in 1954 all units of the Division were trained at one site during the same period. Of the total strength of 9,346, actual attendance at field training was 8,218.

b. Strength. Attendance by members of the 30th Infantry Division for the 1958 Annual Active Duty for Training period was 685 officers, 93 warrant officers, and 7,440 enlisted men, an aggregate of 8,218. Not present were 461 trainees excused for 6-months active duty for training, 318 trainees excused by NGB Bulletin No 13-1, and 16 officers and 32 enlisted men attending service schools. Percentage of attendance credited to the Division was 96.77.

##### c. Training.

(1) The training as a whole received by the 30th Infantry Division for the 1958 Annual Active Duty for Training period was superior. This was due to a high standard of Armory Training, thorough planning, careful supervision at all echelons of command, and great enthusiasm and esprit by every member of the command. Morale, appearance and military bearing of the men was superior. The health of the command was better than in 1957, and fewer physically unqualified men were brought to camp. Religious services were conducted by 17 Division Chaplains in five chapels in the cantonment area and at designated areas while the Division was in the field.

(2) Competition was conducted in rifle and pistol firing and trophies were awarded outstanding individuals and teams. A trophy was presented to 2d Battalion, 120th Infantry as best unit in the Annual Review. This was the first year the marksmanship and parade competition was held.

(3) An extensive special service program was conducted to include athletic contests, service club, talent shows, post exchange facilities in cantonment area and bivouac, dances, band concerts, motion picture theater, motion pictures in the field. 2,100 members of the command participated in the athletic contests. Special trophies were awarded winners and runners-up in all events.

(4) Training during the first week was devoted primarily to:

(a) Completion of individual weapons qualification not completed during weekend training.

(b) Crew-served weapons crew training, examination and firing.

(c) Infantry squad tactical exercises.

(d) Tank platoon exercises and crew proficiency testing.

(e) Field Artillery Battery firing and testing.

(f) Specialist training including demolition specialist, communications specialist, engineer equipment operators, projectionist school, armorers' school, intelligence school, field artillery and AAA radar schools and field artillery meteorological school.

(5) On Saturday, 14 June 1958, the Annual Review of the 30th Infantry Division provided the official observance of the 183d anniversary of the birth of the United States Army for Fort Bragg. Each year the Review enjoys increased attendance and this year the largest group ever to attend the ceremonies watched the Division pass in review and observed the following presentations and awards which were part of the ceremony:

(a) The presentation of the Bronze Star of Chaplain (Captain) John E Wayland, 105th Engineer Battalion, Charlotte.

(b) Third United States Army Training Trophy to Company B (Rear), 730th Ordnance Battalion, Butner.

(c) Eisenhower Trophy to Service Battery, 113th Field Artillery Battalion, Youngsville.

(d) National Guard Award for Efficiency in Maintenance to Tank Company, 139th Infantry, Parkton.

(6) On Monday, 16 June 1958, the entire Division with the exception of certain support units made a tactical move to the west ranges for four days of work. The employment of organic Division aircraft by commanders permitted close control of march columns and increased the training benefits of the movements to the ranges.

(7) Training during the period 16-19 June consisted of:

(a) A tactical motor march of the entire division from the cantonment area to field bivouacs.

(b) Field artillery tactics and techniques including day and night displacements and registration in the target area.

(c) Heavy mortar company fires.

(d) Infantry platoon exercises in-attack in normal terrain, night attack; defense; and daylight withdrawal.

(e) Armor, engineer, and reconnaissance tactical training.

(f) A second tactical motor march of the entire Division from the field bivouac to the cantonment area.

(8) The Division returned to the cantonment area during the afternoon of 19 June 1958. The period 20-21 June was devoted to preparation for the return movement to home station, clean-up and turn-in of PCS property, payment of troops, and miscellaneous details.

(9) Members of the Armor, AAA, Engineer, and Reconnaissance units departed the field training site 20 June to move 90-mm gun tanks and other heavy equipment to home stations. This advance movement was completed at this time to minimize conflict with heavy weekend traffic and return convoys of military vehicles.

(10) The 30th Replacement Company provided administrative support for the North Carolina Army National Guard Officer Candidate School during the entire period of the encampment. Further support for the School by the Division was provided through the services of instructors, equipment, and demonstration teams.

d. Finance. Personnel assigned duty with advance detachment were paid Wednesday 11 June. Personnel on main body and rear detachments were paid 20 June. A total of \$825,439.67 was required for payment of all payrolls, and an average of \$6.00 was turned in to Post Finance at Fort Bragg.

e. Leaves. The unfavorable leave situation of two years ago has been corrected. From a high of 9.98% of the command total leaves in 1956, the Division has progressed to only 4.7% total leaves in 1958.

f. Postal. The Division Post Office handled an estimated 50,000 pieces of mail during the encampment.

5. ACTIVE ARMY SUPPORT. Administrative, training, and logistical support furnished by the Active Army was superior. Outstanding in this support was the following:

a. XVIII Airborne Corps Artillery provided outstanding training support for 30th Division Artillery in radar and metre training.

b. 82nd Airborne Division provided valuable assistance in the loan of 106-mm recoilless rifle and instructor personnel.

c. 77th Special Forces provided demolition instruction for Infantry demolition specialists.

d. Post ordnance representatives conducted school 17-19 June on fuel injection for M-48 tanks for tank mechanics of 730th Ordnance Battalion.

e. 168th Signal Company, Fort Bragg, and Mr. McKoon, 3d U. S. Army Technical Representative, Fort McPherson, Ga., assisted Division Signal Sections.

f. U. S. Army Hospital, Fort Bragg, was outstanding in its service to the Division.

g. 6th Army Air Field Operations Detachment provided support for the Provisional Aviation Company during the entire period of the encampment.

h. 519th MI Battalion assisted in intelligence CPX in the field, and 317th USASA monitored communications during bivouac.

i. 44th Medium Tank Battalion provided training support for 130th Tank Battalion which was attending field training with the Division for the first time.

j. The RTC area of Fort Bragg was used again as the cantonment area for the Division. Facilities included mess halls, barracks type buildings, headquarters buildings, one post exchange, one service club, one

theater, and five chapels. This was an increase over facilities provided in 1957, but failed to meet the minimum requirements of the Division at its present strength.

k. Major General Robert F. Sink, Commanding General, XVIII Airborne Corps and Fort Bragg, and members of his staff were of great assistance in preparation and conduct of the encampment. XVIII Airborne Corps Artillery was designated the support unit for the Division and did a superior job.

l. Colonel R. L. Webb and members of the Evaluation Team were helpful with suggestions and constructive criticism.

6. VISITORS. The Division was honored during the encampment by the visits of many distinguished guests. These included:

The Honorable Luther H. Hodges, Governor of the State of North Carolina

Lt General Clark Ruffner, Commanding General, Third U. S. Army  
Major General Capus Waynick, The Adjutant General, State of North Carolina

Honorable Hugh Milton III, Assistant Secretary of the Army  
Brig Gen Terry Sanford, U. S. Continental Army Command

7. RECOMMENDATIONS FOR FUTURE ENCAMPMENTS. Among the more pertinent recommendations made by various commanders and staff officers for future training periods the following are noted for consideration:

a. Mess hall delivery of milk by vender rather than bulk delivery to the Division Quartermaster Ration Breakdown.

b. The Tank and Anti-Aircraft Artillery Battalion should attend Annual Active Duty for Training with the Division two years out of three.

c. Third U. S. Army Inspection Teams should include Medical Corps or Medical Service Corps Officer to report on medical units.

S/CLAUDE T. BOWERS

CLAUDE T. BOWERS

Major General, NCARNG

## HEADQUARTERS

## IV CORPS ARTILLERY

North Carolina National Guard

Municipal Airport Branch

Charlotte, North Carolina

7 November 1958

SUBJECT: Field Training Report, Fort Stewart, Georgia, 29 June-13 July 1958

TO: The Adjutant General  
State of North Carolina  
P. O. Box 791  
Raleigh, North Carolina

1. In accordance with instructions contained in paragraph 6, General Orders, Number 13, Adjutant General's Department, State of North Carolina, 27 May 1958, the following report of the Field Training Period of this headquarters and attached units of the North Carolina Army National Guard, 29 June-13 July 1958 is respectfully submitted.

2. Headquarters Headquarters Battery, 252d AAA Group and the 121st AAA Detachment (Operations) attended Field Training during the period 8-22 June 1958 at an on-site location close to Norfolk, Va., and have rendered a separate report for their encampment. The following units of the command attended Field Training at Fort Stewart, Georgia with this headquarters:

Organization	Home Station
Hq Hq Btry IV Corps Arty	Charlotte, N. C.
Hq Hq Det NC ARNG (In Part)	Raleigh, N. C.
Hq Hq Btry 196th FA Group	Kinston, N. C.
150th AAA Bn	Wilmington, N. C.
449th FA Obsr Bn	Charlotte, N. C.
295th FA Bn	Washington, N. C.
123d Sig Det	Wilmington, N. C.
382d Sig Det	Wilmington, N. C.
403d Ord Det	Wilmington, N. C.
217th AAA Det (RCAT)	Raleigh, N. C.
94th Army Band	Charlotte, N. C.

3. The Commanding General, IV Corps Arty was designated the National Guard Camp Commander for this particular encampment period by the Third US Army, to coordinate matters of mutual interest and facilities jointly utilized by National Guard elements from the States of Alabama, Florida, and South Carolina, in addition to the North Carolina Army National Guard Units. The Staff of this headquarters, ably assisted by certain officers from the Hq Hq Detachment, NC ARNG, served as the Camp Commander's Staff.

4. Of major assistance to both the National Guard and Fort Stewart was the support provided by the 312th APU (USAR) Charlotte, N. C., and

the 805th MP Co (Corps) (USAR), Raleigh, N. C., attending Field Training at Fort Stewart during this period.

5. The support of the Commanding General, US Army AAA and Tank Training Center, Fort Stewart, and his Staff was entirely adequate. The facilities provided for billeting, training areas, ranges, and logistic support was superb. Their spirit of willing cooperation contributed greatly to the most successful encampment ever conducted by this headquarters.

6. This headquarters published two Training Memorandums (TM Nr. 1, 1 Feb 58 "Coordination of National Guard Units" and TM Nr. 3, 1 May 58 "Field Training, CY 1958") and various Field Training Circulars, Information Bulletins, containing necessary instructions and guidance to subordinate and associated units.

7. The 150th AAA Bn conducted Service Practice on the 90 MM AAA Range, and was successful in certain phases of the phases of the Army Training Test. Through no fault of the Battalion, the test could not be completed because of bad weather and equipment difficulties. The completion of the test was postponed until next Field Training Period. They were supported by the two Signal Detachments and the 403d Ordnance Detachment. The 217th AAA Det (RCAT) supported the AAA Automatic Weapons firing on "K" Range.

8. The Field Artillery elements of this Command, under the supervision of the CO, 196th FA Group, conducted service practice, established sound, flash and radar bases for target acquisition, and conducted the ATT for all firing Batteries of the 295th FA Bn in the Camp Oliver Tactical Training Areas. During three days of the second week, the 196th FA Gp utilized the FA Battalion ATT as a training vehicle, testing the 295th FA Bn. The splendid results of this test amazed the members of the NG Evaluation Board and observers, who were unfamiliar with the superior status of training in this battalion.

9. Other highlights of the encampment included:

a. The three-day visit by The Adjutant General, State of North Carolina, Major General Capus Waynick, accompanied by his wife Mrs. Waynick, which was concluded by his review of the NC ARNG troops at Fort Stewart during the Annual Parade.

b. The inspection of training by Lieutenant General Ruffner, Commanding General, Third United States Army, accompanied by several members of his Staff.

10. Recommendations for 1959 Annual Active Duty for Training were submitted to your Department by letter, 15 September 1958, copy of which is inclosed to make this report complete.

WESTON H. WILLIS  
Brig Gen, NCARNG  
Commanding

**HEADQUARTERS  
IV CORPS ARTILLERY**

North Carolina National Guard  
Municipal Airport Branch  
Charlotte, North Carolina

15 September 1958

SUBJECT: Recommendations for 1959 Annual ACDUTR

TO: The Adjutant General  
State of North Carolina  
P. O. Box 791  
Raleigh, North Carolina

1. It is recommended that the following units be scheduled for Annual Active Duty for training, CY 1959 at Fort Stewart, Georgia, with first preference for the first period, (7-21 June 1959), and 2d period, (28 Jun-12 Jul 59), as first alternate:

Hq Hq Btry IV Corps Arty  
449th FA Ober Bn  
Hq Hq Btry 196th FA Gp  
295th FA Bn (155 How. Towed)  
150th AAA Bn (90 MM)  
217th AAA Det. RCAT  
123d Sig Det (RMU, Type E)  
382d Sig Det (RMU, Type E)  
403d Ord Det  
94th Army Band

2. It is recommended that Hq Hq Btry 252d AAA Gp and the 121st AAA Det (Opr) be trained at a site for CY 1959 that will provide practical on-site training and training in the guided missile field. No preference as to site is stated, provided it is a missile defense installation. Savannah River or Norfolk, (where 1958 training was highly successful), Defences are suggestions. It is recommended that this training be scheduled as early as possible in the 1959 training season, with first preference for first period and second preference for second period.

3. With reference to the Fort Stewart Encampment, it is recommended that armored units not be scheduled to train during the same period that both Air Defense and Field Artillery are training. Experience during the two previous camp periods, when this Headquarters has served as a N. G. Camp Headquarters, has shown that when armored elements are scheduled in the same period as Air Defense and Field Artillery Units, training areas are inadequate because of conflicts in the three different types of training.

4. This headquarters will be delighted to have the 130th AAA Bn attend training, at Fort Stewart, during this same period, if that is desired by the Commanding General, 30th Infantry Division.

WESTON H. WILLIS  
Brig Gen NC ARNG  
Commanding

**HEADQUARTERS  
35TH AIR DIVISION (DEFENSE)**

**United States Air Force  
Dobbins Air Force Base  
Marietta, Georgia**

O&amp;T-F

24 July 1958

**SUBJECT:** Report of the 156th Fighter Interceptor Squadron (North Carolina ANG) 1958 Summer Encampment

**TO:** Commander  
35th North American Air Defense Division  
Dobbins Air Force Base  
Marietta, Georgia

1. The 156th Fighter Interceptor Squadron of the North Carolina Air National Guard, located at Douglas Airdrome, Charlotte, North Carolina, conducted a two week summer encampment at Travis Field, Savannah, Georgia, during the period 6 July 1958 to 19 July 1958.

2. The objective of the field training period was to further improve the proficiency and capability of subject squadron in the performance of its air defense mission. Training was conducted in accordance with established ConAC directives.

3. The squadron concentrated on flying aerial gunnery missions with primary emphasis on upgrading aircrews to operationally ready status.

4. **Major Problems:** No major problems were evident during the encampment. Operations, Maintenance and Supply units functioned very smoothly and efficiently throughout the entire encampment. Minor problems were quickly alleviated as they arose. This was indicative of a well supervised and coordinated program which is to be commended.

5. **Assistance Given by the Advisory Team:** The Fighter Systems Officer of the 35th North American Air Defense Division gave an Air Defense briefing on 17 July 1958 to all the assigned and attached pilots. This briefing covered the organization and mission of NORAD and its subordinate units, and the aerial, submarine and missile threat to the U.S.A. An aircraft control and warning squadron director from the 861st Aircraft Control and Warning Squadron spent three days with the 156th Fighter squadron during the entire training period and flew three gunnery missions and three target missions, observing individual and flight procedures and techniques. Assistance was rendered when desired.

6. Resume of the Encampment:

a. Personnel:

Colonel William J. Payne	-----	Commander, North Carolina Air National Guard
Lt Colonel Robert M. Brooks	----	Commander, 145th Fighter Group
Captain Charles R. Carmichael		Operations Officer, 145th Fighter Group

Lt Colonel Robert Higgins	Commander, 145th Air Base Squadron
Lt Colonel Sydney L. Jetton	Commander, 145th Materiel Squadron
Captain Thomas C. McNeil	Commander, 156th Fighter Interceptor Squadron
Captain William V. Elliott	Operations Officer, 156th Fighter Interceptor Squadron
Lt Colonel Walter B. Wacłowski	Air Advisor, 156th Fighter Interceptor Squadron

A total of forty-five pilots attended the North Carolina Air National Guard summer encampment. Forty-one were jet qualified of which thirty-five were squadron pilots.

b. Maintenance: The 156th attended summer camp with 26 F-86E and two T-33 type aircraft. An overall in-commission rate of 95% was attained. A total of seven ground aborts during the encampment was experienced. A total of 287:30 F-86E hours and 61:25 T-33 hours were flown.

c. Operations:

(1) All gunnery missions were flown against a 6' x 30' polyethylene target with a radar reflector, at altitudes of 17,000 feet (low altitude gunnery mission) and 25,000 feet (high altitude gunnery mission), for the purpose of meeting the requirements for qualifying the pilots. Requirements for becoming Operationally Ready qualified consisted of two high altitude gunnery sorties with a minimum of 12% hits and two low altitude sorties with a minimum of 17% hits. A breakdown of the squadron gunnery results are as follows:

(a) Sorties flown	232
(b) Rounds of ammunition fired	48,065
(c) Number of hits	2,413
(d) Overall percentage of hits	5%
(e) Sorties lost due to:	
1 Ground aborts	17
2 Targets shot off	17
(f) Pilots qualified:	
1 High altitude	18
2 Low altitude	17
3 High and Low	16
4 Percentage of squadron pilots becoming operationally ready "Qualified"	46%

All missions flown were thoroughly briefed and critiqued by the flight leaders. With very few exceptions air discipline and flight integrity were excellent and those exceptions were quickly corrected. The flight commanders utilized the gunnery camera film to a great advantage which was conducive to the high percent of qualifying missions. A mobile control unit was in place and manned for all flying. The excellent supervision and

leadership displayed, produced an efficient and highly successful summer encampment.

d. Ground Training: An F-86D/L MTU was set up during the encampment. The maintenance personnel and squadron pilots attended three hours per day during the encampment in anticipation of converting to F-86D/L in the not too distant future.

e. Miscellaneous: Two incidents occurred during the encampment. On one, fuel had leaked into the combustion chamber prior to starting an F86E. When ignition was applied a moderate explosion occurred. No damage was noted at the time, however, an engine change was made. The second involved a T-33 towing a target. The pilot stated the aircraft was mushing excessively on take-off and he was in doubt about getting over the trees. He dropped the target and tips immediately. Adequate lift was experienced for take-off and he returned and landed at the field with no further difficulty.

7. Summary: It is my observation during this two week summer encampment that the 156th Fighter Interceptor Squadron is fully capable of performing its air defense mission in a highly effective and efficient manner on the shortest possible notice.

RAYMOND D. STRONG

Captain, USAF

Assistant Fighter Officer

State of North Carolina  
Office of the  
STATE DIRECTOR OF SELECTIVE SERVICE  
Raleigh

4 August 1958

In Reply Refer To:  
8.4-1g

SUBJECT: Report of Field Training

TO: The Adjutant General  
State of North Carolina  
Raleigh, North Carolina

1. Pursuant to paragraph 3, GO 14, AGD, NC, 27 May 1958, report is made herewith on the field training period covered therein.

2. The field training problem covered a simulated condition similar to that covered in Opal 58. The officers were required to set up a headquarters under simulated emergency conditions, using only the information and material stored in the records depository of this headquarters at its relocation site. It appeared that the Selective Service Section, Headquarters and Headquarters Detachment, appeared to have gained valuable experience from the problem posed by the training program. Following the problem they were required to report to the State Director all weaknesses found in the information in the depository and make such recommendations as they deemed advisable. It is felt that this agency will benefit from their report of deficiencies and their recommendations.

3. The field training for 1959 for the Selective Service Section is already scheduled. It is recommended, however, that the next field training thereafter be developed into a follow-up program designed to develop further the problem that the unit was working on during this training period.

THOMAS H. UPTON  
Colonel, FC NGUS  
State Director

## **NATIONAL AWARDS TO UNITS OF NORTH CAROLINA ARMY NATIONAL GUARD**

State Maintenance Award for Efficiency in Maintenance 1957
